ETH Zurich - Ventilation2009 - Home - Invitation

Invitation

Chairman's Welcome

I am pleased to be your Chairman for VENT 2009 which will be held at ETH in Zurich on October 18-21, 2009. Our committees are working diligently to organize an exciting conference for all participants. This series of international conferences on Ventilation for Contaminant Control began in Toronto in 1985 and has continued in London (1988), Cincinnati (1991), Stockholm (1994), Ottawa (1997), Helsinki (2000), Sapporo (2003) and Chicago (2006).

The VENT 2009 Conference will focus on Future Trends for Clean Air Technology for High Quality Products and a Healthy Workplace Environment. This conference will bring together world leaders in research, technology developers, engineers, equipment suppliers, practitioners and government officials to show case leading edge technology for the industrial and business communities. The Conference will include technical presentations, poster sessions and informative and interactive round table discussions on selected topics.

It is my sincere pleasure to invite you to VENT 2009, the 9th International Conference on Industrial Ventilation and I look forward to meeting you in Zurich on October 18-21, 2009.

Howard Goodfellow
VENT 2009
Conference Chairman

Howard D. Goodfellow

Abstract submission is now open.

Submit your [abstract](#) before February 28, 2009. You can register today as potential participant or author [here](#) to receive periodic information.
