TENOVA TAKRAF RECEIVED THE PROVISIONAL ACCEPTANCE CERTIFICATE FOR THE SÃO LUÍS STACKER, BRAZIL.

Genoa, September 6, 2010. COMPANHIA VALE DO RIO DOCE has recently issued the Provisional Acceptance Certificate for the Tenova TAKRAF Stacker installed at Ponta de Madeira Terminal, Brazil.

The Stacker machine, which has 16,000 tph nominal capacity and 50 m boom length, has been installed at the stockyard of the Vale terminal at Ponta de Madeira, in the state of Maranhão. The main structures of the Stacker have been built in China in partnership with Timec, Tenova's Chinese production facility, under Tenova experts' supervision. Tenova Italimpianti do Brazil was in charge for the final assembly stage.

Tenova designs and supplies advanced technologies, products and services for the metal and mining industries. Tenova operates close to its customers through a network of 33 companies based on the 5 continents. For more information visit our website at www.tenovagroup.com.
