Tianjin Seri Machinery Equipment orders Car-Bottom Heating Furnaces to Tenova

February 2009. - At the end of last year, Tianjin SERI Machinery Equipment Co. Ltd. has awarded an order to LOI Thermprocess (Tianjin) Co. Ltd., a company of Tenova LOI Italimpianti, for the supply 4 Car-Bottom Heating Furnaces. The general time schedule of this contract is 8 months.

Tianjin Seri is going to invest 2.5 billion RMB to set up production lines for high quality mandrels with high alloys, castings and wind power principal axes in Dongli district, Tianjin, to reach the capacity of 15,000 tons mandrels and 600 pieces of wind power principal axes per year. LOI Italimpiantis' Car-Bottom Heating Furnaces are a part of this project and will be used to heat castings in forging plants.

The Tianjin SERI project for mandrels with high alloys and castings is one of the Top-20 industrial projects of Tianjin city. Tianjin City, in fact, selected 20 key industrial projects from over 1,000 projects to give financial supports. Main characteristics of these projects are low energy consumption and high production values.

Tenova LOI ITALIMPIANTI is a leading supplier of industrial furnaces and services for the metal industry. Tenova designs and supplies advanced technologies, products and services for the metal and mining industries. Tenova operates close to its customers through a network of 31 companies based on the 5 continents. For more information visit our website at www.tenovagroup.com.
