### **Tenova to realize three new carbon baking furnaces in China.**

**Genoa, October 12 2009.** Sinosteel Advanced Materials (Zhejiang) Co. Ltd and Tenova LOI Italimpianti, together with LOI Thermprocess (Tianjin) Co Ltd. for local manufacturing, have recently signed a contract for the turn-key supply of three (3) car bottom type furnaces and one central incinerator system to be installed at Sinosteel Advanced Materials (Zhejiang) Co. Ltd in Zhejiang Province, P.R. China.

The furnaces will be used for baking process of fine grain carbon blocks to be further graphitized and used in the single crystal silicon pulling market.

The furnaces represent the state of the art technology in the field of baking and re- baking processes for carbon blocks. Each furnace has a gross capacity of maximum 450 tons and is fired by means of min/max burners system.

The three furnaces are connected to a central incinerator in order to cope with the pollution standard required.

Tenova LOI ITALIMPIANTI is a leading supplier of industrial furnaces and services for the metal industry. Tenova designs and supplies advanced technologies, products and services for the metal and mining industries. Tenova operates close to its customers through a network of 33 companies based on the 5 continents. For more information visit our website at [www.tenovagroup.com](http://www.tenovagroup.com)
