Tenova I2S rolls out New 20 Hi Cluster Mill for POSCO VST

Yalesville, May, 2010 Tenova I2S successfully put into service a new ZR22B-52 20 Hi Cluster Mill commissioned at POSCO VST in Vietnam. POSCO VST is a subsidiary of the POSCO Company which produces cold rolled stainless steels.

The Tenova I2S ZR22B-52 mill is a state-of-the-art machine designed to process stainless steel from 3.0 mm to 0.1 mm thickness with a strip width range of 650 mm to 1300 mm at speeds of 600 MPM. The mill is equipped with Tenova I2S advanced automation and control system that provides users the capability to produce world class precision thickness tolerances and flatness. The mill features AC drives, Flatness and I2S gauging systems.

The successful completion of the ZR22B-52 project for POSCO VST once again strengthens the leadership of Tenova I2S in the international rolling mill industry.

Tenova designs and supplies advanced technologies, products and services for the metals and mining industries. Tenova operates close to its customers through a network of 33 companies based on the 5 continents. For more information visit the company's website at www.tenovagroup.com
