Tenova Takraf Italy signed a contract with Engro Chemical Pakistan Ltd. for product movement and storage facility in Pakistan.

Genoa, August 2008. Tenova Takraf Italy has recently signed a contract with ECPL for the design and supply of a new urea handling facility dedicated to the new urea plant at Daharki site, Sind State, Pakistan.

Upon completion, the new urea plant at Daharki site will be the largest single train ammonia-urea complex in the world.

The Tenova Takraf Italy contract will cover the requirements for a prilled urea handling, screening, reclaiming, fines conveying, bagging and truck loadings systems package.

The above systems will permit to top the capacity of 8000 urea bags (50 Kg) per hour as nominal output from the new plant.

The scope of the contract includes the design, supply, transport, erection and commissioning supervision.

The delivery at site is expected by September 2009 while the commissioning of the systems is planned by July 2010.

Tenova designs and supplies advanced technologies, products and services for the metal and mining industries. Tenova operates close to its customers through a network of 30 companies based on the 5 continents. For more information visit our website at www.tenovagroup.com.
