**Tenova LOI Italimpianti to revamp two Roller Hearth furnaces in Malaysia for Megasteel.** A new order has been awarded to Tenova LOI Italimpianti for the revamping of the two existing Roller Hearth furnaces in Banting Megasteel Steel Mill (Malaysia). The furnaces, supplied by Techint Technologies (former name of Tenova) in 1997, will be revamped mainly to improve the hourly production actually rated at 2.0 Mt/year and expected to reach 3.5 Mt/year.

LOI Italimpianti refurbishment will cover the following activities:

- Increase capacity of the Combustion System
- Modification of the Combustion System for natural gas firing
- Replacement of "Dry" rollers with "wet" ones
- Upgrading of PLC for combustion and handling
- Renewing of refractory lining

The proposed solutions met the customer expectations in terms of performances and delivery time, which always represent very critical issues for this kind of interventions.

Tenova LOI ITALIMPIANTI is a leading supplier of industrial furnaces and services for the metal industry. Tenova, former Techint Technologies, design and supplies advanced technologies, products and services for the metal and mining industries. Tenova operates close to its customers through a network of 20 companies based in 14 different countries. For more information visit our website at [www.tenovagroup.com](http://www.tenovagroup.com)
