January 31, 2006

Techint receives a new order in Poland for one walking beam furnace and a complete Roll Shop including three roll grinders, for Mittal Steel Hot Strip Mill.

A new prestigious order has been obtained by Techint Technologies from Siemens-VAI within the package of the new hot strip mill for Mittal Steel Poland. The Techint supply is a new walking beam furnace (450 tph capacity) and a complete Roll Shop including three roll grinders.

Techint Technologies order includes the engineering, complete supply, training and supervision to erection and commissioning.

The end of erection is scheduled for December 2006.

This supply reconfirms the high reliability and top quality of Techint products still more strengthen by the synergies granted by two Business Unit of Techint Technologies (Furnaces and POMINI Roll Grinders) able to join their capabilities in the field of hot strip mills.

Techint Technologies design and supply a wide range of equipment and services for the metals, glass and raw materials industries. For more information visit our website at www.techint-technologies.com.
