**Tenova TAKRAF to supply a new Stacker in Australia.**

**September 12, 2008.** Tenova TAKRAF, through Tenova-Semf (Australia), has recently signed a contract for the design and supply of a luffing stacker with HWE Mining at RioTinto's Mesa A iron ore operation, located 50 kilometres from Pannawonica in Western Australia's Pilbara region.

Tenova SEMF signed the contract with HWE Mining (a Leighton Contractors owned subsidiary) which will develop the whole mine.

The scope of the contract includes the design, supply, transport, erection supervision and commissioning supervision of a fixed luffing stacker for lump ore.

The stacker features a boom length of 50m and the luff range is  $\pm 12^\circ$ . It will operate at an average capacity of 3,846 tph with a peak rate of 5,000 tph. The annual capacity will be 25 million tonnes.

The stacker will be delivered to the site by the 1st of May 2009.

Tenova designs and supplies advanced technologies, products and services for the metal and mining industries. Tenova operates close to its customers through a network of 30 companies based on the 5 continents For more information visit our website at [www.tenovagroup.com](http://www.tenovagroup.com).
