Tenova Pyromet to upgrade Eastplats CRM Smelter in South Africa

Johannesburg, 29 July 2008 - As part of a project to re-commission and update the Crocodile River Mine smelter, Tenova Pyromet has been appointed to study the re-commissioning of two 3,7 MW furnaces originally installed by Tenova Pyromet for PGM conc smelting, at the Crocodile River Mine site close to Brits. The project includes refurbishment and upgrading of the concentrate receiving and furnace areas which are expected to be commissioned for mid 2010.

With its experience in the industry and previous association with Eastplats, Tenova Pyromet was a natural choice for the project.

Tenova designs and supplies advanced technologies, products and services for the metal and mining industries. Tenova operates close to its customers through a network of 30 companies based on the 5 continents. For more information visit our website at www.tenovagroup.com
